

How to Extract the DOE eGuide Lite

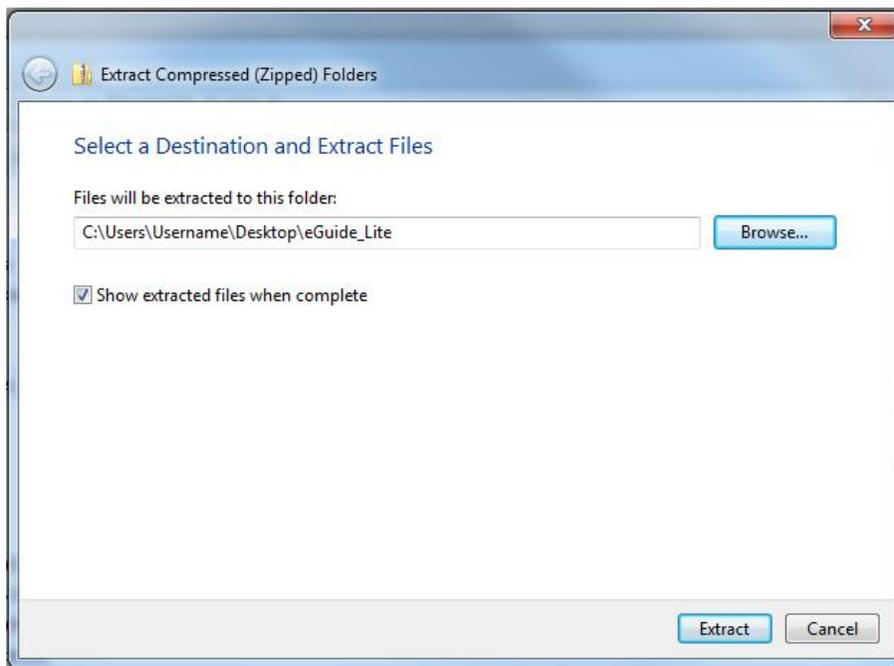

Note: The following information is for using the extraction application in Microsoft Windows 7. If your default zip application is different and you are having trouble extracting the file please contact AMO_ToolHelpDesk@ee.doe.gov.

Step 1: Save the eGuide_Lite.zip to your desktop or appropriate folder. When the download is complete, find the eGuide_Lite.zip in its zipped format on your desktop or appropriate folder.

Step 2: Right click on eGuide_Lite.zip file and select “Extract All”

Step 3: Browse to applicable folder and select “Extract”

The guide will be extracted to the selected folder, and the links within the tool will be functional.
